Safety Tips for Parents and Students:

Each parent has a definite role in the safe and efficient operation of a school’s transportation system.

If the transportation program, as a whole, is to function effectively, the parents must assume their responsibilities to the program and extend cooperation and support to the people charged with its operation.

We encourage parents to do the following:

- Cooperate with the school authorities and district personnel during pick-up and drop-off to ensure safe travel of all students.
- Parents should obey all traffic rules around the campus to help in mitigating congestion.
- Parents should work with their students that walk and bike to school to promote safe commuting.
- When riding the bus, instruct students to use good behavior and encourage them to obey all traffic rules, signs, and signals.
